Your Excellency,

We thank you for your answer to [our letter](#) of 10th September 2024 about the violations of academic freedom that are taking place in Iran.

We were disappointed, however, that your response made no reference to the contents of our letter on the situation for academics in Iran. It appears clear from your response, which discussed the situation in Palestine and academic freedom on Palestine, that you have not had the opportunity to make yourself familiar with the work that our associations' Committees on Academic Freedom have done in the past years with regard to the situation in Palestine, and in terms of academic freedom to discuss Palestine.

As you can see from the websites of [BRISMES](#), [MESA](#) and [SeSaMO](#), all three associations have been clear and vocal in condemning the attacks on Palestinian students and academics by the Israeli military and by Israeli institutions; in defending the academic freedom of our Palestinian colleagues in Israeli universities, as in the recent case of Prof. Nadera Shalhoub-Kevorkian among others; in defending the rights of our colleagues employed in the universities of our respective countries to express opinions critical of Israel and Zionism; in denouncing the IHRA definition of antisemitism as a violation of academic freedom; in condemning acts of genocide and ethnic cleansing committed in the Occupied Palestinian Territories by the Israeli military; and in defending students and faculty targeted for their outspokenness in our respective countries from police and institutional violence.

You can find some of our statements and letters about these topics below.

As you will therefore clearly see, our Committees on Academic Freedom consistently support and defend the rights of academics both within our respective countries and within the Middle East and North Africa. We respectfully repeat our request that you address the content of our letter, which details an extremely concerning pattern of violations of academic freedom in Iran.

We look forward to receiving your reply.

Yours sincerely,

Dear Friends,

Thank you very much for your pay attentions.

Your letter will be sent to the Great destinations.

Let me tell you something honestly. I am really sorry for the international community that institutions like yours defend their high human values in a completely discriminatory manner. It's a shame that you can never even think about the crimes that the Zionists are committing in Gaza and the Occupied Palestinian Territories.

All universities, scientific centers, schools, cultural institutions ect in Palestin, were completely destroyed by American and European bombs.

A large number (I emphasize a large number) of students, professors and people associated with science and research in Palestin were brutally killed.

During the past months, in prestigious and large universities in Europe, North America (USA and Canada), a large number of university students and lecturers have been deprived of education and teaching, or severely they were beaten by the police.

University environments in the several Western countries were put under the boots of the police and all the values that you mentioned in this letter were considered as nothing.

Please be ashamed of all these double encounters.
Please tell us what you did in the mentioned cases?
What are you really looking for?

Best Regard.
